Education

Bachelor of Engineering (Computer Engineering)   2022 – May 2026 (Expected)
Dr. Babasaheb Ambedkar Technological University, Lonere   SGPA: 7.0

Class 12   June 2022
Wainganga Junior College, Pauni   Percentage: 65%

Class 10   June 2020
Wainganga Vidhyalaya High School, Pauni   Percentage: 74%

Technical Skills

- **Programming Languages:** Java
- **Frontend Technologies:** HTML5, CSS3, JavaScript, React, Thymeleaf
- **Backend Technologies:** Spring Boot (Core, MVC, Data JPA, REST API), Spring MVC, Servlets, JSP, JDBC
- **Databases:** OracleDB, MySQL, H2
- **Tools & Platforms:** Git, GitHub, Maven, Gradle, Apache Tomcat, Kafka
- **Testing:** JUnit, Mockito

Relevant Coursework

Operating Systems; Object-Oriented Programming (OOP); Data Structures and Algorithms (DSA); Database Management Systems (DBMS); Computer Networks

Professional Experience

Academic Projects and Practical Implementation   2022 – Present

- Designed and developed backend systems using Java, Spring Boot, Servlets, and JDBC following MVC architecture.
- Built RESTful APIs with Spring Boot and implemented secure authentication and role-based access control.
- Applied DAO and Service layer patterns to create maintainable, scalable, and production-ready applications.

Projects

Library Management System
Java, Servlets, JSP, JDBC, MySQL, HTML, CSS, JavaScript, Apache Tomcat

- Designed and developed a dynamic Library Management System to manage books, members, and issue/return workflows.
- Implemented CRUD operations using JDBC following MVC architecture with DAO and Service layers.
- Built an interactive admin dashboard to monitor book availability, issued records, and due dates.

Student Management System (Spring Boot)
Java, Spring Boot, Spring MVC, Spring Data JPA, Thymeleaf, MySQL, Spring Security, Maven

- Developed a full-stack Student Management System using Spring Boot with secure authentication and role-based access control.
- Implemented advanced CRUD functionality with pagination, form validation, and global exception handling.
- Designed student-course enrollment system using one-to-many entity mapping and integrated dashboard analytics.

Certifications & Achievements

- Java (Basic) – HackerRank
- Software Engineering Job Simulation – Forage
